

## 2<sup>nd</sup> Montreal Workshop on Idempotent and Tropical Mathematics

3-4 July 2013

### TOPICS

#### Theory

- Tropical algebra and geometry
- Tropical and idempotent analysis
- Tropical convex analysis
- Idempotent functional analysis
- Idempotent semiring theory
- Dequantization & mathematical physics

#### Applications

- Control of discrete event systems
- Biological systems
- Optimization
- Networks
- Information sciences

#### ... and related topics

### ORGANIZER

**Edouard Wagneur**

GERAD & Polytechnique Montréal

### SCIENTIFIC COMMITTEE

**Hans Schneider** USA

**Edouard Wagneur** Canada

**Sergei Sergeev** UK

**Karel Zimmermann** Czech Republic

### GERAD

University of Montreal Campus

André-Aisenstadt Building

2920, Chemin de la Tour

4<sup>th</sup> floor, room 4488

Montreal (Quebec) CANADA H3T 1J4
